Property Type: Hotels
Price: € 0.00

Additional information

Additional information: The rich history of Smolyan has long established the town as a natural administrative, economic and cultural centre of the Rhodope Mountains.

The specialists are still seeking an explanation of the incredible combination of natural conditions, mentality and music. A Rhodope song with its unique sound is flying in open space as a message to other worlds.

Smolyan is situated 92 km south of Plovdiv and 92 km away of the Aegean Sea.

The town is surrounded by a magnificent panorama, fantastically decorated with fir forests, valleys, caves and lakes, which is very impressive to the tourists and visitors of the town. The nearby sea, the varied vegetation, the forest areas and the lack of air polluters are very good for the human health. Smolyan is famous for its favourable climate and pure air, which predetermine the forming of two tourists seasons: in summer and in winter.

Our hotel - the Babylon - is one of the recently constructed bases for rest, sports and recreation and is of the three-star category. There are 6 apartments, 3 single rooms and 3 double rooms. There are a telephone and a TV set in each room, and there are also a hall for quiet games and a guarded parking lot for the guests of the hotel.

There are 26 seats in the restaurant, where we offer varied cuisine, delicacies and traditional Rhodope cuisine.

We offer sightseeing tours in the town and the surrounding area to noteworthy natural phenomena; walking, horse or hunting tourism; transport to the first lift station to Pamporovo; transport from and to Plovdiv and Sofia.

You will find in the Babylon Hotel and Restaurant responsiveness to your wishes, a quiet place for rest and all kinds of conditions for sports and recreation.
