Additional information

Additional information: Dear guests,

We truly hope that with its age-old traditions, significant past and dynamic present, Bulgaria will leave you with the impression of a country worth revisiting. We believe that Devin will touch your heart and will leave you with exciting and beautiful memories!

According to the old Bulgarian tradition, when you receive a dear guest you say “dobre doshal” to him. The Orpheus Spa Complex team greets you in the same way and truly hopes your stay with us will be unforgettable.

Visiting our complex is not just a break from the city turmoil and the urban trivial round but a magic trip. Here you have the unique possibility to enjoy the marvels of nature at Rodopi Mountain, the abundance of mineral water, the crystal-clear air, the aroma of wild flowers and herbs, the unique cuisine and the fine Bulgarian wines.

According to the legend, Orpheus could play his lyre in such an enchanting manner that everyone stood quiet, spellbound by its sound. This is exactly the magic we have tried to bring to our complex built on the land where Orpheus used to live…

We hope we have succeeded!

Best wishes!
