Fisherman's Hut *****

If you are looking for a place for recreation and fishing the "Ribarskata Hija" is your place.

Is situated in the Rhodopes mountains between the town of Devin and Shiroka Laka. The distance from the hut to Sofia is 200 km., 45 km. to Smolyan and 20 km. to the mountain resort of Pamporovo.

Devin municipality is well known for its abundance of sightseeing places and natural resources – gorges, rock formations, national parks and specific places with exquisite flora and fauna. The breathtaking natural phenomena – the Trigradsko gorge, the Djavolskoto Carlo (Devil's throat) cave and the Yagodinska cave are also located in the region. Every tourist can enjoy the beauty of numerous unforgettable places here. The forests are abundant of flora and fauna and the rivers are full of fish.

The Fisherman's hut has it's own breeding pool with American rainbow trout famous for it's excellent taste.

The Devin region is characterized by favourable climate – mild winter with excellent skiing opportunities and cool summer with many sunny days.

From the ancient days the regions has been known for its healing mineral waters and variety of spas. The physico-chemical properties of the mineral waters make them suitable for treatment of a number of diseases.

The Fisherman's hut offers its guests hot mineral water coming directly from the Beden mineral spring suitable for balneological treatment as well as natural spring drinking water with great taste. That combination guarantees total strengthening of the body increased tones, health and liveliness.

Nearby is the village of Mihalikovo famous for the naturally sparkling water.
