| Title:         | Baroto Complex |
| Property Type: | Hotels         |
| Price:         | € 0.00         |

#### Additional information

Additional information: 3 kilometres east of Gotse Delchev, in the direction of Garmen and Dospat, in the most exotic part between the Pirin Mountain and the Rhodopes, in the immediate vicinity of the Mesta River, you will find the quiet and cosiness of the Baroto Complex. A hotel, a restaurant, swimming pools, sports grounds, bars, a barbecue, a fitness hall, a fishpond and a guarded car park for about 40 cars are situated upon an area of 8 decares.

The hotel of the complex provides that warmth which we miss when we leave our homes. The rooms are excellently decorated and the presence of wood in the stylish furniture gives a sense of being close to nature, and of luxury at the same time. We offer our guests 2 apartments and 20 double rooms, all of which have their own bathrooms, TV sets, telephones and room service, air-conditioner.

#### Restaurant

Cooking for Dafina from the Baroto Restaurant is

her raison-d'etre. With their pinch of spice and inspiration, her dishes are both delicious and beautiful, and their taste - well known yet unfamiliar - lingers on the palate for a long time. When your meals are prepared by Dafina, you will be able to feel the word of our motto:

We create memories!

### Swimming Pool

The jewels of the complex are the two swimming pools - one large and one for children, filled with mineral water from the famous all over Bulgaria springs in the village of Ognyanovo. A professional lifeguard takes care of the holidaymakers' safety.

The children's pool is beautifully decorated with well-maintained lawns. There are children's playground slide and swings and grassed football and volleyball playgrounds right next to the pool. The entertainment here is accompanied by the sensation of wide open space, and the proximity of the Mesta River, which is several metres away from the pool, can be felt in the air.

The large pool is neatly enclosed by a day bar and the inner part of the restaurant. The guests of the complex can attend open-air fashion sessions, concerts, discotheques and promotions under the light architectural structures of these buildings.

There are a large open-air barbecue fireplace, a fishpond and other quiet isolated corners among exotic evergreen trees, which are suitable for parties of groups of friends, firms and small circles of people.

3 kilometres east of Gotse Delchev, in the direction of Garmen and Dospat, in the most exotic part between the Pirin Mountain and the Rhodopes, in the immediate vicinity of the Mesta River, you will find the quiet and cosiness of the Baroto Complex.
