Property Type: Hotels
Price: € 0.00

Additional information

Additional information: The Maliovitsa Hotel has been entirely renovated and it has been meeting its guests since the beginning of 2006.
Located amid a beautiful coniferous forest, next to the ski tracks, your hotel is offering you all the amenities needed for active recreation and sports. The Maliovitsa Hotel is open all the year round and you can have unforgettable winter and summer holidays in it, seminars and meetings can be held, family celebrations and gatherings can be hosted here.
Your comfort is guaranteed by a newly furnished modern heating installation.
Totally refurbished are: the hotel section, the restaurant, the lobby bar, the night club and the recreation and sports center.

The total number of beds, available at the hotel, is 150, distributed as follows:

- 3 suites
- 3 family-type rooms
- 22 triple rooms

- 14 double rooms with balconies
- 19 double rooms without balconies

All hotel rooms have private bathrooms, a T.V. set, a cable T.V. network and the view from all of them is fascinating.

A shop, a ski wardrobe, a computer room and a guarded car park are available on the hotel premises.

Welcome to the Maliovitza Hotel!

You can enjoy the chef's specialties in the restaurant, you can have Bulgarian national dishes or you can taste some Mediterranean food.

We have also thought about the lovers of vegetarian dishes as well as about special children's food.

While you are having your meals you will be able to have the pleasure and fascination of the panoramic view to the mountain peak of Maliovitza.

The restaurant can seat 150 people.

We did our best for the lovers of parties, dances and good spirit: the design was entirely renewed; the illumination and the audio equipment were brought up to date. A professional DJ takes care of the music fans and two bars serve drinks to heighten the degree of your spirit.

The night club can seat 60 people and nearly as many more can be dancing.
