(numbers):

Additional

information: Do you want to escape the stress city, smog, the
breathless daily round and everyday traffic jam?

You look for a quiet and cosy sport to spend your
vacation?

Then, welcome to "Oreletz" ("little eagle") - that is
the perfect place for tranquil holidays far from
civilization, a beautiful family house near the sea in
Bliznatzi village is waiting for you.

Here is the firth of the Kamchia River as well. The dense forest round its mouth is a bio-spherical reserve included in the Register of UNESCO. On the right bank of Kamchia River is the natural phenomenon "Chudnite skali" (the Marvelous Cliffs") - an amazing sculpture group chiseled by the river and leaned over the very road and water.

You can get to center of Varna in 15 min by car (20km) and in 25 to Varna International Airport.

"Oreletz" is offering accommodations with 5 double rooms (bed and breakfast) all with private baths, modern amenities, a fine sitting and dining room with fireplace and outside barbecue. There is a terrace and a veranda overlooking the mountains, the sea and the village.

If you want to have lunch or diner, please let us know in advance. With us you will feel as being at home, taste the Bulgarian national cuisine (Granny style dishes) and bio and eco products too.

We offer transfer to the house from the airport, the railway or bus station.

We can also take you to an excursion to some historical and archaeological sights and parks. Aladzha monastery - a Middle Age rocky Bulgarian cloister (13th-14th century) with a museum. The mystical "Stone forest" Pobiti Kamani (15 km west of Varna) is an incredible geological phenomenon 50 million years of age. Another great possibility is sea or river-fishing and bike hiking.
