Property Type: Hotels
Price: € 0.00

Additional information

Additional information: Pioneer Development EOOD is a Bulgarian company, based in Sofia, investing in tourist complexes on the Bulgarian Black Sea coast and in the popular Bulgarian ski resorts.

In one of the most exclusive areas of the Bulgarian Riviera, we are developing the outstanding Emerald Beach Resort and Apartments - an apartment-type complex, corresponding to a high class holiday property. Development with capacity of 2100 beds, available in 780 apartments, in five independent buildings – Emerald Building with its three wings: Cashmere Wing, Satin Wing and Damask Wing; Madras Building and Ikat Building, followed by Villa Challis and Villa Bagheera. All five buildings are situated in a beautiful park, right next to a marvelous beach. Comfort and cosiness are of great importance to our company and, we believe, to our guests. The complex's names are inspired by the tenderest of materials, ever made by a human hand.

Emerald Resort's numerous amenities and location

on a broad white sandy shore, make it an ideal investment for everyone, who wishes to own an affordable, luxury apartment as a first or second residence.

Emerald Resort will be built up on a lot of 120 000 sq. m. (30 acres) in a natural park with rare plants. The complex will provide its guests with well-maintained beach and several indoor and outdoor water attractions.

Emerald Resort will come complete with state-of-the-art infrastructure. Our ambition is to create an all-inclusive environment, bringing together natural beauty, quiet seclusion, effortless luxury and of course, all the amenities you would expect in a luxury holiday property.
