Additional information: This is the “Bora Bora” family hotel. The hotel was build in year 2004. It is situated only 50 meters from the beach in Bulgaria’s biggest and best summer resort — Sunny beach. “Bora Bora” is of the kind of small, cosy hotels that people more and more lately prefer rather than the huge and noisy ones. The

guests can always relay on more individual attitude and attention from the personnel, get quicker reactions of problems and questions and thus have more pleasant vacation. The building is designed in compliance with the standards and requirements for a ***+ hotel.. The rooms and bathrooms are comfortable and modern, equipped with air conditioning/heating, cable TV, phone, fridge, hair-drier. There is a sea view from every room in the hotel - most of the rooms have full sea view, while in very few the sea can be admired only from the balcony. Overall the hotel has 31 double rooms with 2+1 beds, 6 double rooms with 2+2 beds, 2 studios with 2+2 beds, 2 apartments with 2+2 beds. The rooms' standard beds are 100 x 200 cm, while the additional beds are small retractable couches, turning into 80 x 180cm beds. The +2 additional beds in the studios are full size on 2 levels. The water in the swimming pool can be heated by solar panels so you won't have to worry whether the sea is not yet warm enough or already too cold. The nearby open-bar services both the swimming pool and the garden and offers you variety of exotic drinks and cocktails to pick-up your good mood. Billiard, tennis table, featherball are also available around the garden area. Wireless Internet can also be used in the hotel's area. We provide a laptop to our guests for a charge, but you can also take your own notebook and use the wireless link during your whole staying period (2.5 EUR/day charge, 15 EUR/week). We are especially proud of our restaurant. We have already built a tradition in high-class service and kitchen, the best proof of which is that we have more and more regular clients, returning all the time. The prices are kept at a competitive level in comparison to the others in the region. Whether you need the family kind of holiday or you are just a bunch of friends who want to chill out — we are the right place!! The staff is carefully selected to be well experienced in the tourist and service sphere. The management is led by the owners who have long experience in the tourist sphere, and have participated in the management of a few hotels and restaurants in the neighborhood. We are always in a process of study. By listening to

the customers and taking into account everything they have to say, we are trying to better ourselves in what we do and thus give not less than the best service possible. Check out our website for more photos.
