Additional Hotel "Sun" is completed at the end of 2006. The
information: building is designed and build accordind to all

bulgarian and european standarts and complies with all requirements for a city type hotel. Comfort and practicality was what we have tried to achieve. We have followed the idea of the sun designing the exterior of the hotel, the entrance hall and the lobby-bar, and this is whre the name comes from. We hope, as our guests, you are going to enjoy what hotel "Sun" has got to offer.

Our aim is to leave you pleasantly surprised visiting the hotel and get more than you have expected, on price lower than you have thought to pay. Because, no matter how trivial may sound, your satisfaction as our guests is our top priority.

For your convenience is available a silent lift, on your service all the time.

If you prefer , you can use the panoramic glassed staircase.

You can spend some nice time in the lobby-bar and enjoy a cup of coffee or have a drink. For our guests, the bar is open 24 hours a day.
