Additional information

Additional information: Azareiya is an ecological village for rest and recreation which consist of six wooden houses. They are for rent during the whole year. You are welcome to spend a fantastic holiday.

We tried to create a new type of ecological buildings, working together with team of architectures and specialists we combined the newest contemporary building materials with scientific proved theories for ecological way of living. We would like to offer you an absolutely new philosophical conception, a completely new type of buildings, which shape, construction and building materials are unique for Bulgaria and the whole Europe.

“Ecoengerins-S”LTD builds eco village Azareiya in the heart of Balkan mountain in village Gorno Trape, next to Troyan town - 6km. It is nearby Chiflika and Shipkovo, places famous for their spa centres with hot mineral water. The eco village

consists of 6 wooden round type buildings in the shape of cnus, which are situated in circle. All houses are orientated towards south and are open to the view of the beautiful mountain hill. The houses have 2 floors with total space 60 square meters. They are entirely wooden.

Special gardening project is used so as the place looks as colourful mandala. On the central terrace, between the houses a wooden pyramid is built, which is used for meditation, curing and relaxation. A small swimming pool and BBQ are situated in the garden also.

On the basis of our long year experience in building ecological houses and the researches we have conducted, we can say that these houses have good influence on human's health, physic and psychological status in the following areas:

- Normalizes the regular energy flow and immune system.;
- The headache and stress disappear;
- Normalizes blood pressure;
- Normalizes the regular function of nerve system;
- Normalizes the sugar level in the blood;
- Enhancing the people' s energy status ;

Troyan Balkan

Troyan Balkan is situated between pick 'Ushie' in West and the springs of Tuzha river in East. In this part the mountain is incredibly beautiful - sharp peacks take turns with round green grass hills. If we follow the mountain from East to West we will first see "Maragidik" peack. The city of Troyan is situated on 20 km form "Beklemeto" (1360 m) in the southest part of the Troyan manicipality. The most interesting of the mountains in the Troyan Balkan is Vasiliova mountain which is the most comon choice for tourists. Vasiliova mountain starts from "Beli Vit" river in East and goes to the the Troyan valleys to the West. The main ridge of the mountain is covered with oak forests and fern meadows over which you can see the peacks "Treskavec" , "Tarsa"

, "Golesh" , "Kojnec", " Golqm and Malak
Wasiliovski kupen".
