Additional information: The hotel is located in the newly-formed modern hotel complex at the entrance of the town of Obzor on the side of Varna near the mouth of a picturesque river. The location of the complex allows for both a dynamic rest during hiking and car tours to close and

distant points, and pleasant moments on the beach of soft and silky sand.

Sea and mountain. The seaside with its spacious beaches and the easternmost spurs of the Stara Planina Mountain create a unique microclimate in the region. The breeze circulation during the day and night creates an enjoyable feeling of warmth in the summer months. The air which is saturated with iodine vapours from the sea and oak forest scent from the mountain has a refreshing effect and improves the health of our guests.

The Black Sea in this part is notable for clean and transparent water due to its distance from the big cities Varna and Bourgas, as well as for insignificant waves as a result of the sea jutting into the shore.

The Stara Planina mountainside has insignificant slopes here, which provides an ideal opportunity for easy walks in the oak forests, intersected by sunny glades suitable for picnicking in the nature.
