THE BEACH LINE in Obzor is the largest one on the Black Sea coast. The shore is low and sandy with a fully open horizon to the east. The sea is calm and

it is perfect for swimming, surfing and water skiing.

AVERAGE TEMPERATURE in the summer is about 28°C and water temperature is between 22°-25°C. The breeze from the sea rhythmically refreshes the air. In the morning before sunrise the air is rich in ozone and negative ions, ultraviolet rays and iodine released in the form of gas from the seaweed.
