Additional information

Additional information: The happiness
of feeling calmness and
quietness of nature,
far from the big city...

The pleasure
to dip into the beauty
and the amazing atmosphere of the village
in the mountain...

The chance
to be far from the noise of the crowds,
from the vanity of the day,
from monotony of the everyday life...

The excitement
to experience it with the ones
you love...

our family found the fascination and the romance,
which village Badevci hides in itself and it turned

into our second home. The old house began its new life by virtue of our endless love and hard work. It has conserved the spirit and wormth of the old Bulgarian house, despite of its restavration it still offers convenience , which we are used to and we cannot do without. The stone wall, the sun-dried bricks , the walls of wattle, the beams, the hobnailed wooden ceiling - all this was conserved by us, to remain the spirit of the ancestors. Cosiness of home, the touch of water, colouring of the yard, freshness of the mountain remain for any length of time in everyone`s memory, who has already been here and turn into a dream. We want to share this dream with you.
