Additional information

Additional information: Wellcome to Bansko
Bansko is one of the best winter resorts offering wonderful skiing conditions until late in the spring. It is also the perfect place for your summer holiday thanks to the splendour of the greenest mountain in Bulgaria. Here you can enjoy mountain hiking, feast your eyes on the limpid mountain rivers and streams, along which there are plenty of picturesque picnic sites.
Its architecture is a combination of stone and wood up to the mark with the traditions of the ancient town. It fascinates the tourist visiting this place to draw peace on the roots of the Bulgarian national spirit, to enjoy the traditional folk restaurants and the lovely music.
