Additional information

Additional information: Melnik is a historical town, though it is the smallest town in Bulgaria - only about 230 people live there. However, the spell and the potential Melnik offers are much greater. Melnik carries over 1000 years of history. Through most of this flash of eternity people have pronounced the name of Melnik as the synonym of wine and the pleasure it brings. Melnik is a blend of unique nature - the cliffs clustered around the houses on the hills, history, culture and wine.
